HOW DOES IT WORKS?

Italian scientist & researchers found that the a certain plant found in Scandinavian regions when specially blended with some other botanicals in the optimum proportions & condition helps greatly in the development of the mammary tissues. They bind onto the estrogen receptors at the breast connective tissues & muscles which are then tightened up & strengthen. This prones an enlargement over time which can varied from an increase of 3 to 10cm depending on the individual receptability. The natural phyto active organic component, bust growth complex SG3 in BUSTO-LIFT further stimulates development of the bust tissues, enlarging them further by elongating and branching out the mammary ducts.

如何達致效果?

意大利的科学家及研究员发现在斯堪的纳维亚地区，有一种草本植物，當與另外一種植物根据適當的比例及成份互相混和後，所產生的效果將幫助乳腺組織生長，並且能徹底滲透在乳房連接肌肉組織之雌激素受體，令乳房擴大結實，經過一段時日，它將根据個人吸收能力加大3至10公分。在 BUSTO -LIFT 霜中含有活性有機成份及擴胸性能的SG3 乳素，將更進一步的刺激乳房組織生長，並且能拉長及分開乳房腺管。
